## Northern Lights celebrate company milestone at FLIBS

By Thea Cheney

The first day of the 54th Fort Lauderdale International Boat Show saw Northern Lights announce a milestone in their history. Larry Repman, vice president & general manager, presented a plaque to Greg Bishop of Bishop Marine Electric to commemorate their 50,000th generator since Northern Lights altered their serial number system in 1984. With Bishop as their "largest and most important dealer", Repman described the date as an "important and special day for Northern Lights."

Larry Repman presents Greg Bishop with the commemorative plaque.

Speaking to SuperyachtNews.com Colin Puckett, vice president of sales & marketing for Northern Lights said, "the South Florida market has been very important for Northern Lights operation for a long time. It is because of partners like Bishop Marine Electric across the world that we have the brand and reputation that we do."
